The Transportation Security Administration requires flight schools to verify that students have United States Citizenship before flight training can begin. A valid US Passport or an original birth certificate and government issued identification must be presented for copying. If you do not have a driver's license, you can obtain an identification card from the State of Florida. See <http://www.dmv.org/fl-florida/id-cards.php> for more information. Non US Citizens must be approved the TSA prior to any training. Please contact us for instructions.
